MARKS	WORD LIMIT
10	~150 words

Answer Hint

Multilateralism; consensus-based decision-making; geopolitical rivalries; divergent national interests; global economic governance; diplomatic dialogue; institutional cooperation; Global South

Model Answer

Introduction

The G20 provides a platform for major economies to coordinate responses to global economic and developmental challenges. However, geopolitical divisions often limit its ability to achieve collective positions.

Major Limitations

1. Divergent National Interests: Differences over conflicts, trade and strategic priorities make consensus difficult.

2. Consensus-Based Approach: The absence of binding decision-making mechanisms can restrict collective action.

3. Geopolitical Rivalries: Conflicts and competing security interests can overshadow cooperation on economic and developmental issues.

4. Implementation Deficit: G20 commitments depend largely on the willingness of member countries to implement them domestically.

Measures to Strengthen Effectiveness

- Prioritise common economic and developmental interests despite political differences.
- Promote continuous diplomatic engagement and confidence-building.
- Strengthen cooperation on food, energy and maritime security.
- Improve representation of developing countries and the Global South.
- Establish measurable implementation frameworks and follow-up mechanisms.

Conclusion

The G20's effectiveness depends on its ability to preserve dialogue, build minimum consensus and translate shared commitments into practical outcomes.
