MARKS	WORD LIMIT
10	~150 words

Answer Hint

Conflict resolution; UAPA and due process; fundamental rights; public trust; political reconciliation; inclusive dialogue; security and development

Model Answer

Introduction

Peace in Jammu and Kashmir requires a balance between legitimate security concerns, constitutional governance and public aspirations. PDP President Mehbooba Mufti has advocated dialogue and reconciliation over coercive approaches.

Role of Dialogue and Governance

1. Inclusive Political Dialogue

Sustained engagement among elected representatives, civil society and relevant stakeholders can address grievances and strengthen democratic participation.

2. Rule of Law and Civil Liberties

Laws such as the Unlawful Activities (Prevention) Act, 1967, provide powers to address specified unlawful and terrorist activities. Their application must follow statutory safeguards, constitutional protections and judicial oversight. Allegations of misuse require impartial examination.

3. Building Public Trust

Transparent administration, accountable security operations, access to justice and protection of civilian rights can reduce alienation and improve cooperation between citizens and institutions.

4. Development and Reconciliation

Employment opportunities, education, infrastructure and fair access to public services can complement political initiatives, although development alone cannot resolve every political grievance.

Way Forward

The government should combine lawful security measures with sustained dialogue, institutional accountability and responsive local governance.

Conclusion

Lasting peace depends on both security and legitimacy. A rights-respecting, inclusive political process offers a framework for durable reconciliation.
